

**AKULA CYBERSEC SOLUTION**

# **Your Future in Cybersecurity is Now.**

Ready to take the next step? Whether you're looking to fortify your business defenses or launch a dynamic career in cybersecurity, Akula provides the expertise and opportunities you need to succeed.

# Pioneering the Future of Cybersecurity with AI

Explore our mission, advanced AI projects, and opportunities for upcoming talent in our exclusive brochure.

## Our Mission

Our commitment to protecting the digital world through innovative, AI-driven security solutions.

## AI in Cybersecurity

Leveraging artificial intelligence to build the next generation of proactive security solutions.

## Fostering New Talent

Our internship program offers hands-on experience with cutting-edge cybersecurity technology.

# Building the Future of Cyber Defense

Discover how Akula Cybersecurity merges bespoke software development with advanced artificial intelligence to create next-generation security solutions for your business.

## Our Core Services

### Managed Threat Detection

24/7 monitoring and response to threats across your digital environment.

### Compliance & Risk

Navigate complex regulatory landscapes and ensure your operations meet industry standards.

### Cybersecurity Training

Empower your team with comprehensive training programs and phishing simulations.

## Our AI Projects

### Predictive Threat Modeling

Utilizing machine learning to forecast potential attack vectors and vulnerabilities.

### AI-Driven Network Analysis

Real-time analysis of network traffic to identify anomalous behavior and insider threats.

### Automated Remediation

Developing intelligent systems that autonomously deploy patches and reconfigure systems.

## Ready to Secure Your Digital Assets?

Let our team of experts design a custom AI-powered cybersecurity solution to protect your organization from the threats of tomorrow.

# Internship Eligibility

Welcome to the Akula Cybersecurity Internship Program. The following criteria are designed to help us identify promising candidates passionate about pioneering the future of AI-driven cybersecurity. We encourage all who meet these standards to apply.

## Academic Requirements

To be considered for the program, candidates must meet the following academic standards.

- Enrolled in or recently graduated from a Bachelor's or Master's program in Computer Science, Cybersecurity, or a related field.
- Minimum cumulative GPA of 3.2 on a 4.0 scale.
- Must be a current junior, senior, or a recent graduate (within the last 12 months).

## Technical Skills

Applicants should possess a strong technical foundation and a keen interest in cybersecurity.

- Proficiency in at least one core programming language, such as Python or Java.
- Strong understanding of fundamental cybersecurity concepts (e.g., network security, cryptography).
- Experience with AI/ML frameworks (e.g., TensorFlow, PyTorch) is a significant plus.

## General Requirements

We value collaboration, communication, and a proactive mindset.

- Must be legally authorized to work in the specified location.
- Excellent verbal and written communication skills.
- Proven ability to work effectively both independently and as part of a collaborative team.

# Internship Eligibility Criteria

Who We're Looking For

## Academic Requirements

- Pursuing a degree in Computer Science, Cybersecurity, or related field.
- Minimum 3.2 GPA on a 4.0 scale.
- Currently enrolled as a Junior or Senior.
- Relevant coursework in security fundamentals.

## Technical Skills

- Proficiency in Python, C++, or Java.
- Familiarity with Wireshark, Metasploit.
- Strong understanding of network security.
- Basic knowledge of cryptography concepts.

## Personal Attributes

- Excellent problem-solving abilities.
- Strong written & verbal communication.
- Eagerness to learn and collaborate.
- Demonstrated passion for cybersecurity.

# Internship Eligibility

Find out if you're a good fit for our AI-driven cybersecurity team.

01

## Academic Standing

Must be currently enrolled in a university pursuing a degree in Computer Science, Engineering, or a related field.

02

## Technical Skills

Proficiency in Python, knowledge of machine learning frameworks (e.g., TensorFlow, PyTorch), and familiarity with cybersecurity principles.

03

## Key Attributes

Strong problem-solving abilities, excellent collaboration skills, and a genuine passion for innovation in cybersecurity.

04

## Availability

Available to commit to a 12-week program, working a minimum of 20 hours per week.
